

## Harry's: A Proven Business Partner

For over 35 years, Harry's has been hand crafting high-quality, chef-inspired fresh soups, entrées, sides and desserts. Harry's small-batch process starts with artisanal-quality ingredients that are kettle cooked by hand — each by highly trained chefs. Our state-of-the-art, 80,000-square-foot facility uses a hot fill/quick chill process that locks in freshness and flavor to ensure a delicious experience without artificial preservatives. All Harry's products contain zero grams trans fats and contain no artificial colors or flavors. Harry's is certified by the Safe Quality Food Institute with Level II credentials, as well as by both Oregon Tilth and the USDA for organic manufacturing.

## Benefits of working with Harry's

- Turn-key core product line
- Flexible manufacturing capabilities with minimum orders of 6 kettles per item
- Hundreds of chef-inspired recipes
- Trusted, high-quality products
- Consistent taste profiles
- Proven food safety

### Order minimums are 6 kettles, 2 times per month:
